DETAILED ACTION

Claims 1-24 are pending.

Information Disclosure Statement

References cited in The Information Disclosure Statements, filed on 2/10/2005, 10/16/2006 & 1/17/2007, are made of record.

Claim Objections

Claims 5-19, 23 and 24 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot dependent on another multiple dependent claim. In the instant case, claim 5 dependent is dependent on claim 3, which is a multiple dependent claim. The same is true for claims 6-19, 23 and 24 which are dependent on several multiple dependent claims. See MPEP § 608.01(n). Accordingly, the claims 5-19, 23 and 24 not been further treated on the merits.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4 and 20-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. Recitation of "wherein the process parameters are selected to give a product which demonstrates improved efficiency of filtration" renders claim 1 and its dependent claim 2-4 and 20-22 indefinite, as it is not clear what these process parameters are. As recited, claim1 asks one to identify the process parameters leading to the desired

properties rather than reciting them. The same applies to claim 4, which requires one to find a suitable addition time.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 and 20-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Taylor et al., WO 01/60804.

Taylor et al., teaches a process for making calcium salt of rosuvastatin. See page 1, for calcium salt of rosuvastatin and page 2, lines 8-27 for details. See examples 1-10 shown in pages 7-15. Especially see example 10, which includes instant process.

Claims 1-4 and 20-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Bryant et al., WO 00/49014.

Bryant et al., teaches a process for making calcium salt of rosuvastatin. See entire document. Especially see example 7, which includes instant process.
